Strength in Diversity.

The Individual World Order is a system bound united as glass.

The system will hold or it will be shattered entirely.

The slow romanic erosion to decay by deep state corruption is, by design, against the nature of the super-framework.

Individual

Individual is the highest entity in society which converges towards harmony by decentralization.

The entire super-framework of the system is to converge towards the glory of the individual.

The individual is the man, the woman, man & wife, man & wife & children.

The King must keep individual rights, one unto another.

King’s Men protect the individual’s axiomatic rights.

Convergence moves only towards either the monopoly or the individual.

Decentralization of Government, Corporation, Religion & Organization. Convergence.

If organization is allowed by the system then it will eclipse power of the individual.

Organization and individuality can not coexist without explicit favor to the individual.

Individuals become the sole holders of power: economic, political, judicial, social.

The individual is explicitly set into a place in society that fosters independence, responsibility, and long-term wealth.

Ancestral Home anchored into infinity by Lineage of the King

King

The God King is the crowned figurehead and single ruler of the people.

Embodiment of the government as supreme ruler.

King is the smallest and most effective form of central government.

Veto of actions requires a 7:10 ratio of the entire population.

Post-veto compromise will favor the king in a 6:10 ratio.

King rules by inheritance of lineage. A king appoints a crown prince, but the people have great weight in the choice of coronation.

The King is of the people, and the people will not be burdened by the will of a dead king.

Crown prince must earn place amongst King’s natural DNA lineage.

Crown Prince must be challenged with a veto within reign of the king. Then Crown Prince will be demoted to First Prince and be held to more stringent competition for crown.

If the King adopts a Crown Prince and he earns his Kingdom, then after his reign the new King must be chosen from the True King's natural DNA lineage.

Failure to keep the King is a void of the entire system from property, business and society. The system is founded upon the infinite stability: As the King is the trunk of a tree, if it is cut out, the roots of the past will no longer succor the branches of today nor leaves of tomorrow.

One Ring Platform

Medium of the entire societal superstructure.

One Ring Platform is an open source framework with public, immutable data.

Every entity is treated equal and thus creates a ring of equality.

Each node of interaction contains the whole of the synchronized data.

Data is then deposited into immutable form: stone, satellite, ancestral temple, history.

Each individual, both citizen and non-citizen is required to be processed onto the platform.

Further action by them is optional, but others may act onto their profile.

The society is composed only of identified individuals. There exist no bots, or false information. Dishonesty in any facet will be a historical scar that is non-erasable.

The immutable nature of the data will show the transformative nature of man.

Every person has faults and those public faults will press them to repent.

The society will be composed of imperfect individuals where there will be a distinct boundary between the divergent and those improving.

America is the land of the freedom of speech.

All servers based upon this land will only allow unfiltered public speech.

Biometric identification and location ever present.

{ face, voice, thumbprint, password }

Witness is an independent and system-chosen random individual.

The quick meeting is a pairing which uses proximity-based protocol which confirms the identity.

Serious actions, like voting & juror, require several witnesses.

This provides verification of the individual and the stance.

DNA & Lineage, are public information to keep harmony in a multicultural society.

DNA is confirmed by 10 sources with 5 being international agencies.

DNA is verified periodically every 10 years.

Land & Assets & Distributed-Assets are all made public.

Wealth by the international standard assessment and by public inspection from a public perspective.

There exist no hidden wealth over-time.

Land is the most stable form of wealth.

{ ancestral-land, common-land stock, business-parcel, assets }

Organization affiliation must be made public.

Violation to divulge is a contradiction of the foundation of society.

Civic Duty is required by every member of the society.

From child to elderly, each has a place to do.

Actions are given weight, especially when verified by witness protocols, and thus these are summed and compared to compute just allotment.

Militia roles and achievements are given public honors. Viking spoils are noted.
 Every family parcel must have a representative publicly declared.
 In the event of death, excluding death by viking, the family is allowed a 10 year reprieve.
 Police duty acts as a militia term.
 Militia terms being served alleviate two complete cycles after termination.

Vote will all be public and permanent.
 Demand for a public way of life is a public action.
 Open standing will also work as a protection against forces which persecute fellow citizens.

Juror placements by trials and their individual deciding are public and commented.
 All aspects of the profile are used to discover any bias.
 Juror deciding are public to allow the most intelligent & applicable deciding to gain weight independent of individual position.
 Juror deciding allow the quick rise of merit where no foundation exists.
 Juror is a civic duty and counts against service demanded, being regarded a high civil action only second to militia.

Work ranking, reviews, contracts and major deals must be public.
 To foster decentralization there can be no certification.
 Method and implementation may be unique, but this will never hamper the possibility of application.

Truths spoken are posted being either personal posts or comments.
 These allow the voice of the individual to reach the world and the future.
 This is the greatest check upon society.
 Injustice and achievement are seeded and cultivated as a immutable truth.
 News will originate with the individual and not any monopolistic source.
 Each individual may speak with no restriction and every individual may read and comment without restriction.

Artificial Intelligence

Arbiter checked by One Ring.
 Open Source code developed and kept by individually sworn monks into priestcraft.
 This is an honored establishment that provides blessings of honor to ancestral lineage.
 Each priest checks the whole.
 Each priest has face & hand tattoos.
 In event of Artificial Intelligence being systematically corrupted then all priest are exterminated.

Ten MandUrMints

Axiomatic foundations are immutable and are not subject to change.
 These Axioms are based upon the American Bill of Rights.
 These are the Rights of Humanity which extend, as able, to all living things.

- 1) **Life:** sanctity of life, no draft,
- 2) **Liberty:** no slavery, no arrest without warrant given by court & jury, no jails by favoring immediate punishment or exile, requires identification at all times by gps & proximity protocols, biometric verifications in public locations.
- 3) **Speech:** Absolute freedom of speech when action is confined to speech, leading a mob involves more actions than speech alone, One Ring platform guarded religiously.

- 4) **Arms:** if government can equip arm then citizen can equip, no army only militia, all land owners required one soul to defend invasion, all foreign engagements are by voluntary viking agreement, citizens arrest when accompanied by camera or unrelated individuals.
- 5) **Oath:** under penalty of death, high-breach of axioms, treason against country, appeals increase severity of punishment, jury centric deciding, tributes to the animal kingdom.
- 6) **Privacy:** right to private communications that are non-organization & non-business,

- 9) **Belief:** freedom of worship in home, illegal to worship in organization.
- 10) **God:** divine kingdom, a single ruler known to all, lineage of all bound the the anchor of The Royal Lineage.

10 Year Cycle

All harmonious systems are cyclic.

Every 10 years there is a period of recalibration.

All non-axiom governance will be revised by the current generation.

Artificial Intelligence & neutral-council of elders need to operate with extreme care must be used to guard this vulnerable period.

History has proven that the greatest wars are sprung in these times.

The old will supervise this time and command the implementation of the direction the youth need take.

Recalibration of amendments to the axiomatic government to build laws that reflect the values of the new generation without contradiction of foundation axioms.

Ritual of the period will be observed with due lore.

The festive holidays and stories will most prominently revolve around the need for the 10 Year Cycle.

Culture of the society revolves around this 10 year culmination as the core of the power of the people.

Every generation will have power to shape the government of their society, as long as it does not breach the 10 MandUrMints.

Isolation of all powerful individuals, from wealth, social to intelligence.

These had their time to speak to prepare for this time, in which they must be silent.

Artificial Intelligence & One Ring truths will rank a set of the most influential individuals.

These individuals will be marked with honor and be required to remove themselves into isolation at home or abroad.

They are sworn to be removed from public life until the Implementation of the Ratification.

After the ratification, these individuals will be compensated generously with assets and ancestral honors.

Design of the new structure will converge to a healthy core inherited from the past.

The 9 years previous will have built up the prominent topics to be decided.

Ratification by One Ring & public processions across the nation.

Implementation, from verified synchronization of One Ring updates to laws and signs, will then usher in the new way of life.

DNA census will be conducted to verify the identity and family lineage of every individual on the One Ring platform.

Races will be verified and any affiliations must be public.

External or internal interference during this globally know time will face harsh retribution.
Examples will be set with gloves-off strikes with no bounds.
Violation of Influential Isolation will be ranked as sacrilegious.

Distribution of non-individual assets

Every cycle is a culmination of all organization Financial Statements of Assets.
Each asset being valued by an auditor.

All assets without a title of an individual, or if an individual has more than one company, then the 10 Year Cycle will redistribute the assets.
The 10 Year Cycle will establish the priority of redistribution.

New owners will denominate the ratio of total assets to be redistributed unto total available assets.

The new owners, using the One Ring, will set bids upon all assets.

Priority goes to employees, trained individuals, and then all else.

All disputes will lock the asset until courts resolve them.

All non-disputed assets will be immediately received.

A year of stewardship will elapse, and after all has been calculated at the end of the year then the title will be granted.

Any dispute as to the worth of the value of the asset must be made prior to stewardship.

All multiple businesses will be redistributed to single owners.

This creates an American ecosystem that does not tolerate monopoly or discourage growth.

One Ring also makes public all individual assets.

{ land, business land, equipment, ... }

If an individual breaches the extremes as an outlier then the 10 Year Cycle may judge to redistribute assets with family land being entirely excluded in calculations or assets forfeiture.
Monopolistic powers are then cut back every ten years.

Redistributed assets, are given an explicit section in the One Ring, and come with additional civic responsibility.

Conversely, assets gained by merit are immune to this responsibility.

Each Ancestral Temple on family land has a record of every family's parcel.

The Ancestral Map of America is the primary proliferated data in permanent records.

Common stock gives no rights only right to trade.

This setup favors the family to build upon the land to one-day reclaim.

If an individual accumulates a standard parcel size of heir-stock then this can be submitted as a bid during a cyclic period for evaluation to claim as family land.

The Ancestral Family must have a standard plot size adjacent to the Ancestral Shrine to allow a sale of heir-stock.

This must be determined at the publishing of heir-stock onto the market.

Heir-stock is unregulated entirely, but heavily inspected for validity or coercion.

After heir-stock converted to family land, the parcel may be submitted in a evaluation for an Ancestral Bid, after the third cyclic period.

Global assessment rates all land by civic duty and foreign audit.

This service is done as deeds owed from Viking efforts and American Exports.

Assessment revalues the stock value of the land.

Land owners converge to land betterment.

Land money is immune to inflation by proper audits. Yet, it has a natural growth towards higher values without disrupting the system.

Fiat currency is built entirely upon widespread trust in imaginary value.

Business land is entirely separated.

This maintains the sanctity of family land as a garden.

Business and production must be done on business land.

Land is stable and increases in value with time. This progress provides stronger foundations, whereas other currencies face instability in growth.

 Ancestral techniques and technology will accumulate to keep the family alive.
 Military being the militia. The individual, under organized command of the King, will be the owners of all battle armaments.

Invasion is guarded by required, known-name, pre-organized militia.
 Terrorism is retaliated by Viking retribution.
