Strength in Diversity

The Individual World Order is a system bound united as glass: it will hold true or shatter.
The slow, romanic-erosion, by deep state corruption is, by design, against the nature of the super-societal-framework.

Convergence is the infinite definite trend to a distinct ideal, to growth, to destruction.
This mathematical concept joins microscopic-inspection with archimedean-calculations, in analysis to uncover the nature of the formula in action.

Constitution of governments have a definite trend based upon their orientation.
If any organization is allowed to operate in the society, then the whole will become a monopoly.
History of every government proves this indisputable fact.
Organization first consumes individual, then the lesser-group and ultimately the consumption of itself.

Organization is defined:
{ government, corporation, religion, sect }

Individual

Individual is the highest entity in society which converges towards harmony by decentralization as a fundamental characteristic.

Glory of the individual, as an accountable adult entity:
{ man, woman, man & wife, man & wife & children }

Individuals are the sole holders of power:
{ economic, militia, political, judicial, social, civic, academic }

The individual centric society converges unto independence, responsibility and honor.
Diversity creates a true biome adapted to season and region. Resilient against corruption.

Ancestral Home centers the concept of the individual.
Life requires time & space in which to exist.
An ideal must exist which can anchor the system into eternity, as the trunk connects roots to branches.
Heritage of the past will remain bound to current generation.
The historic ideal has always proven to be Royal Lineage of the King.
If the greatest lineage fails then all else will die as branches to the trunk.

King

The God King is the crowned figurehead and single ruler in each individual nation.

Embodiment of the government as supreme ruler.

King is the smallest and most effective form of central government.

Mankind looks above to base nature of personal interactions.

{ King, militia general, business owner, local mayor, parent }

The King is the embodiment of the national head.

The nation is required to respect the royal house, which does not gain from taxation but inherited influence.

The royal house, alone, can have business establishments in every region.

The King issues imperial edicts ZENG-ZI which are required to be posted in every community center. These express the explicit will of the King to be known to the people.

ZENG-ZI is written upon special red-paper with black ink calligraphy, and enforced by the respect of the royal house.

This cultural respect is mirrored by localized-respect from militia to parent.

There is no coercion but that of self and consequences determined by society.

Veto of the King's imperial edict the ZENG-ZI requires a 7:10 ratio of the entire population.

Post-veto compromise will favor the king in a 6:10 ratio, this is written upon black-paper with red-ink.

Failure of a nation to keep the sanctity of the King is a void of the entire super-framework of the society. Dishonor will breed uncertainty from business to ancestral home.

The system is founded in the scope of infinite stability.

The King is the trunk of a tree, if it is cut out, the roots of the past will no longer succor the branches of today nor leaves of tomorrow.

The King & individual are set into an eternal bond of marriage which maintains & balances ultimate fate of all.

Lineage of the Royal House

King sets the order of inheritance.

ZENG-ZI sets the globally known succession of lineage.

At all times a Crown Prince must be appointed by public ritual as a critical necessity.

This is the central objective of the Royal House:

Cultivate royal virtue and foster stability of order as the basis of the nation.

Between, the decay of the life of the King and the coronation of the Crown Prince, there can be no change in succession. Thus the position is named Crown Prince.

The Living King of the nation is a revered god.

The people will not be burdened by the will of a dead king.

Society, being a meritocracy, holds explicit weight in the validation of the Crown Prince.

Crown prince must earn place amongst King's natural DNA lineage.

Crown Prince can only be challenged with a veto within reign of the king.

In event of veto, the Crown Prince will be demoted to First Prince and be held to more stringent competition for crown within the King's natural DNA lineage.

The Living King must adopt in order to exist a non-natural Crown Prince.

If the King adopts a Crown Prince, which reigns, then after death of the non-natural King, the next Crown Prince must be from the True King's natural DNA lineage.

Natural lineage of the Original True King must be maintained at any cost as an axiom of stability.

Individuality is seen in each nation. Each Royal House exists with its unique standards which society naturally reflect.

Chinese keep harems for the King; this ensures many regions to contribute to a Royal House.

This solidifies the bond between the King and all people of the nation by wedlock.

Europeans have small family cores. The focus is upon simplicity which avoids a constant battle for positions.

Africans favor Queens with an emphasis on adoption to nurture strength as a true meritocracy.

Tribal kingdoms set each citizen as family which appoints the King from the oldest & wisest.

One Ring Platform

Medium of interaction of the entire societal super-structure, from global to local.

One Ring Platform is the mind of the societal super-structure.

Union of all generations by unfiltered & immutable data.

Each individual is set to equality of every other.

This system leverages humanities greatest strength: collective reason.

Global assessment of rationals upon unique situation.

Only national adults able to decide.

A distinct separation of influence from authority to enact.

One Ring is an open source framework with public data: verified, then synchronized and lastly archived globally.

Each node of interaction contains the whole of the synchronized data.

Data is deposited into immutable form: stone, satellite, ancestral temple, historic crypts.

Global culture centers upon data as a safeguard.

Each is able to archive the whole for all eternity.

Each individual in existence, citizen and non-citizen, is required to be processed onto the platform.

Further action by them is optional, but others may act onto their profile.

The society is composed only of identified individuals. There exist no bots, or false information. Dishonesty in any facet will be a historical scar that is non-erasable.

The immutable nature of the data will show the transformative nature of man.

Every person has faults and those public faults will press them to repent.

Society will be composed of imperfect individuals where there will be clear distinction between the divergent and those improving.

One Ring Platform is decentralized.

No one location contains central power over the whole framework.

The system operates with equal nodes and predefined protocols.

Sections of the One Ring Platform

Representation

Biometric identification and current location will be incorporated into civilization.
 { face, voice, thumbprint, password }

DNA

DNA & Lineage, are public information to keep harmony in a multicultural society.
 DNA is confirmed by 10 sources with 5 being international agencies.
 DNA is verified periodically every 10 years.

Witness

Witness is an independent verification between two individuals.
 An interaction chosen by a non-involved system.
 The quick meeting uses proximity-based protocols to confirm mutual identity.

Serious actions require several witnesses.
 This provides verification of the individual and the stance.
 { vote, juror deciding, veto, amendment ... }

Wealth

Land, Assets, Distributed-Assets are all public. Resources are of national interest.
 Public wealth implementation will converge all hidden wealth to be uncovered.

Land is the most stable form of wealth

Residential Wealth:
 { ancestral-land, common-land-stock, redistributed-assets }

Business Wealth:
 { business-parcel, common-land-stock, redistributed-assets, profits }

Wealth is calculated by international standard assessment of land and by public inspection of land from a public perspective.

Affiliation

Organization affiliation must be made public.
 Violation to divulge is a contradiction of the foundation of society.

Citizenry

Civic Duty is required by every adult member of the society.
 From child to elderly, each has ability to improve the community.
 Actions are given weight, verified by witness protocols, and thus these are summed into a numerical value.

Militia

Militia roles & achievements keep public honors.
 Militia & Viking engagements are listed by time.
 Merits are listed and are upheld by comments.

Every residential parcel of land must have a representative Defender which is publicly declared.

In the event of death of the Defender, excluding death from viking excursions, the family is allowed a 10 year reprieve.

Police duty acts as a militia term. A Defender of the home.

Militia terms being served alleviate two complete cycles after termination.

Vote

Vote will all be public and permanent.

Demand to compel a public way of life is a public action.

Protection of the axiom guard against forces which persecute citizens for belief.

Court

Judge acts as the supreme referee to legal proceedings.

There exist no moderation or filtering of juror-deciding nor globally public comments.

Jurors, publicly proven in the specific industry, are placed by independent allocation.

All deciding are permanent, public and commented.

All aspects of the profile, and local inspection are used to discover any non-documented bias.

The most intelligent & applicable insights gain weight which is independent of the societal position, being sourced from juror or public comment.

Juror deciding allow the quick rise of merit where no foundation exists.

Juror is a civic duty and counts against service expected, being regarded as a civil action only second to militia.

Business

Work ranking, reviews, contracts and major deals must be public.

To foster decentralization there are no centralized certification.

Merits and testimonials only enhance, but never barricade entry into an industry.

The client is responsible for preliminary investigation and also testimonials which bear legal weight of truth.

Truth

Truths are posted on own profile or comments upon Truths of others.

Exist no restrictions upon Truths posted or commented.

The voice of each individual reach the globe and the future.

This is the greatest check upon society.

{ news, witness, origination, perspective, testimony, merit }

Artificial Intelligence

Many arbiters developed by peoples.

Each exists as a check upon society by interaction with the One Ring

Open Source code developed and kept by monks sworn into priestcraft.

Honored establishment that provides blessings of honor to ancestral lineage.

Each priest checks the whole priestcraft.

All priests live in temple compounds isolated from the world.

Shaolin bastions of intellectual power, which protect the kernel system.

If Artificial Intelligence is systematically corrupted then all priest are exterminated.

Yet to join & maintain honorable Artificial Intelligence system is the highest honor worldwide.

These monks forsake the world in order to focus on scholarly pursuits.

Ten MandUrMints

Axiomatic foundations of the rights of humanity.

A discrete irreducible set of immutable elements which are not subject to change.

These Axioms are based upon the American Bill of Rights.

- 1) **Life:** sanctity of life, no draft
- 2) **Liberty:** no slavery, no arrest without warrant given by court & jury, no jails: immediate punishment or exile, public locations require identification by biometric, gps, and proximity protocols.
- 3) **Speech:** Absolute freedom of speech when action is confined to speech, leading a mob involves more actions than speech, One Ring platform guarded globally.
- 4) **Arms:** if government can equip arm then citizen can equip, no army only militia, all land owners required one soul to defend invasion, all foreign engagements are by voluntary viking agreement, citizens arrest when accompanied by camera or unrelated individuals.
- 5) **Oath:** under penalty of death, high-breach of axioms, treason against country, appeals increase severity of punishment, jury centric deciding, convicted criminals are tributes to the animal kingdom.
- 6) **Privacy:** right to private communications, non-organizational & non-business, non-invasion of residential land, law enforced by siege-works.
- 7) **Freedom:** right of easement of identified individuals, all fences must exist 10 meters from residence, all individuals tracked else be exiled under capital punishment.
- 8) **Domain:** dominion of individual over family & residential-land, dominion of profits from business, no tax on income or purchases, government by citizen duty.
- 9) **Belief:** freedom of family-only worship on residential-land, illegal to worship in organization.
- 10) **God:** divine kingdom, a single ruler known to all, society bound to the anchor of The Royal Lineage.

10 Year Cycle

All harmonious systems are cyclic.

The 10 Year Cycle is the heart of the societal super-structure.

Every 10th year is a period of recalibration of non-axiom amendments to societal governance.

All amendments only ratified by adult citizens via One Ring.

Elders & Artificial Intelligence operate with extreme care to guard this vulnerable period.

History has proven that the greatest wars are sprung in these times.

Each generation is empowered to build laws that reflect current values without contradiction of foundation ten mandurment axioms.

Cycle is a ritual of the power of the individual to govern existence.

The festive holidays and stories of historical lore revolve around observance of the 10 Year Cycle.

The three stages of the 10 Year Cycle:

{ assessment, ratification, implementation }

Assessment is an ever-present facet of society.

Old ideologies are challenged and new choices are presented.

The Tenth Year is to decide how to commit amendment.

Society will grow built upon the past and synthesized into current understanding.

Convergence unto an obvious healthy core.

New ideas generated in each cycle to be matured by debate until the next cycle to implement.

Periodic structure in a natural growth which respects to each season its time.

First years of merciful trial & error.

Mature years of honed form the face of the current generation.

Later years as the elder wise with eyes towards governance nearer ideals.

Ratification by King & One Ring.

Implemented by local communities.

ZENG-ZI public display of a new era.

July Midsummer Festival

Ritual processions nationwide for thirty days.

No-expense-spared for a Tenth Year memorial.

Newborn birth to proud legitimate parents.

On the last day of July the old amendments are laid down and the new amendments risen into law of the land.

Implementation will be slow to allow adaption.

Certain checks are required, and more will be learned.

DNA census will be conducted in the preliminary 9th year.

One Ring verification of individual, family, and affiliation.

Isolation of all national powerful individuals

{ wealth, social, intellect }

Window to speak in the years leading to the 10th year.
 Appointed by the nation as the leaders of the generation.
 Expected to be publicly silent & uninvolved until the first day of August.
 ZENG-ZI will be ceased on the last day of December in the Ninth Year.

Leaders chosen by citizens & Artificial Intelligence on One Ring in the Ninth Year.
 On the first day of November in the Ninth Year is the public ritual of Leaders.
 Leaders will swear compliance and will then receive national & regional compensation for compliance.
 Leaders can choose residential lock-down or vacation abroad.
 Isolation from the first day in January until the first day of August.

Violation of the Oath of Isolation by Leaders condemns capital punishment.
 External interference, during a globally recognized time, will be warranted a global response.

Leaders are respected globally as silent saints.
 Violate Interferers are sacrilegious evils which disrupt global peace.

Distribution of non-individual assets

The end of every cycle culminates all Financial Statements of Business Assets.
Auditors being local, Artificial Intelligence, and International.
Each asset will be valued by each auditor.

Public right to inspect all movement of assets between residential & business.
Profits by nature of the culture must be publicly recognized.

Illegal acquisition by violation of explicit laws of ownership.
Assets claimed for seizure and redistribution.
All assets without a title of an individual.
Individuals with more than one residential title.
Individuals with more than one business title.

Overgrowth by exploitation.
Audit will investigate business practice.
Monopolistic designs will cause forfeiture and fines.
Yet family will retain the titles of land and half of all assets.
Extreme violators will receive capital punishment.

Overgrowth by success.
The standing amendments will determine the individual maximum.
Any growth past this amount will be cut back to the maximum.
The stalk of success will remain, with the overgrowth redistributed.
Success is never punished and the engine of production can not be hindered.

The metrics and laws of redistribution will be based upon the standing amendments.
The redistribution of forfeited assets will be enacted in the start of the next 10 Year Cycle.
This isolates businesses from immediate mob seizure of assets.
Businesses will have ten years to comply and adapt to explicit defined laws.

One Ring will be the platform for eligible individuals to submit bids for redistributed assets.
All disputes will lock the asset until courts resolve them.
All non-disputed assets will be immediately received.
Any dispute as to the value of the asset must be made prior to stewardship.
All redistributed gains are permanent public records on One Ring.
After a year of undisputed stewardship the title will be granted.

Non-tolerance of monopoly and illegal ownership.
Only a prune unto successful businesses.
Family land is entirely excluded in calculations or assets forfeiture.

Land Money

Titles protected by Grace of the King.
 Each title protected by guardianship of all titles.
 Each title is provided with the stamp of the King.

Each individual protects all other individuals with records of proof.
 Ancestral Temples on family land have a record of every family's parcel.
 A physical map Ancestral Land kept as a record.
 New maps of Ancestral Land will be added to each repository.

A portion of the family residential parcel is committed to a 20 meter space set as the Ancestral Temple.

Ancestral Temple space may not be sold off, and if all members of the family are gone then the shrine will be damned a graveyard of bad energy, never to be reappropriated by society.

Individual has supreme dominion of the land.
 No taxation or forced sale of land.
 Land transfers down a public lineage.
 Public boundaries, clear lines of ownership, One Ring involvement work to settle all land disputes.

A portion of the land is split into common stock which is used for commerce.
 In each 10 Year Cycle 5% maximum of land may be set into the title of common stock.
 Repurchase of common stock by owner is set to 110% of sale-price.
 Common stock gives no rights to the holder, it only gives the ability to trade.
 This setup favors the family to build upon the land to one-day reclaim at a set-rate of the original purchase.

A portion of land may be sectioned as heir-stock and can be sold at any price.
 The Original Ancestral Family must have a standard plot size adjacent to the Ancestral Shrine to allow a sale of heir-stock.
 Heir-stock is the only stock that can evolve into ownership and then Ancestral Land.
 If an individual accumulates a standard parcel size of heir-stock then this can be submitted as a bid to claim as family land in the next 10 Year Cycle.
 Land remains under the domino of the owner until the land bid is ratified by the 10 Year Cycle.
 Heir-stock is a public exchange and heir-stock can not be traded.
 Owners of heir-stock can not be coerced to sell back.
 Heir-stock is heavily inspected for validity or coercion.
 After heir-stock converted to family land, the parcel may be submitted in a evaluation for an Ancestral Bid, after the third cyclic period.
 Land ownership must be stable and as static as possible to reduce land disputes.

Global assessment audits value of all land to establish stable global markets.
 Assessment revalues the stock value of the land into One Ring.

Land owners converge to land betterment.
 Land is the public holding of international wealth.
 International metrics establish a clear path to valuation.
 Land is worshiped and is the center of value.

Land money is immune to inflation by proper audits.
 Yet, it has a natural growth without disrupting the stability of the system.
 Land is a finite resource that also has intrinsic value.

Land money is entirely contained and explicitly calculable.
The value can be estimated from satellite to the naked eye of a bypasser.

Anti-inflationary nature of Land Money gives high value to 10% returns of common stock.
{ no taxes, no fees, no devaluation by inflation, finite resource, external assess, no monopoly }

Business land is entirely separate from residential land.
Business and production must only be done on business land.
This maintains the sanctity of family land as a garden.

Mathematics quantify valuable metals as a being of infinite nature.
Continuous mining of metals is compounded by unknown quantities stored or waiting to be rediscovered.
Any currency founded upon precious metals is susceptible to overnight implosion.

Fiat currency is built entirely upon widespread trust in set imaginary value.
In no era of human history has fiat been a stable foundation for a society.

There exists no debt.
There exists no negative land.
There is no usury because there is no land lending.

Equal opportunity and ease of entry will allow gain by effort.

Education & Meritocracy

Decentralized & unrestricted growth of an individual from education to workforce.
 Anti-indoctrination seed which is grown in soil systematically design to thrive and be practical.
 Training is done by independent tutor and apprenticeship.
 Families govern the cultivation of their children.

Civic Duty is the critical ordeal that each citizen faces.
 How well one contributes to the whole trumps excellence for personal gains.
 All manner of government is run off of efforts of the individual.

Employee metric calculations are incorporated from the start. The bastion of power in true meritocracy is the intellectual sophistication to comprehend and compute correct situations.
 Survival and flourish directly propels the drive to learn and become.

Public ranking by public trial.
 Decentralization requires objective assessment done first by Artificial Intelligence, or intelligent auditor.
 Once basic ability is assessed then the individual faces the public ordeal.

The public ordeal takes the apprentice and establishes the worker.
 Ordeals are decentralized and regional. This allows merit to be ranked by region.
 Individual public proof, mass testing, and finally the rival ranking between emergents.
 Rank and merit is then posted to the individuals One Ring Platform.

No certification is required for any profession.
 Reviews on One Ring Platform are accessible to judge between businesses.

Intellectual ability and Virtue form the cornerstones of the society via the One Ring.
 Scholarly ability set as the natural proof of society elites by practical application.
 { judge, juror, truths, ranking }

To excel in this society the individual must be both visionary and an applicator.
 Only the correct balance steers towards greatness.

Citizenry

Every citizen is required to perform governmental duties.
 Three branches of the government: Judicial, Legislative, Executive.
 Artificial Intelligence is able to use devices to monitor duties are kept and done with respect.
 Education trains roles which tend to pass down thru lineage.
 Unbroken ancestral duties form the strongest bond and the most critical weight.

Open Source

All procedure is open source from government to enterprise.
 Citizens are able to inspect sensitive documents.
 National wide authorization able to inspect any region circumvent corruption.

No Copyrights. All take to build and must pay forward.
 What one builds then they execute to the best of their ability.
 Once gains are received then the procedure must be made open source.
 This allows a window of accumulation to be able to get the initiative footing.

Owner & Employee

Owner is defined as an individual which bootstraps company with a minimum of 40% of assets and works full-time on the endeavor.

No Partnerships nor conglomeration allowed to own. One company per individual directly counters monopolistic convergence.

Companies are tied to regional existence as a single industry standard parcel.

Ownership is tied to an individual and is only inherited by heir or adopted heir.

Dislvement is only by dismemberment in piece by piece sale of assets.

Owner Stock

Gains of initial investment will not exceed 400% in total nor paid back at a rate higher than annual 20%.

Ownership stock is bound by inheritance as any carry-forward gains cap.

Singular right to veto in company actions. Veto is limited in the same fashion as veto under King, 70% of employee gains a counter veto.

Counter veto only forces a compromise which favors the owner by 3:2 proportion.

Employee Stock

Employee's receive a ratio of all gains and voting rights.

Employee's contributions are calculated based upon open source metrics and confirmed daily.

Contributions are compiled over lifetime of that engagement.

{ time, overtime, holiday, stress, commitment, implementations ... }

AI & Auditor, chosen by employee, will oversee probationary periods required before termination of contract.

Employee stock is either inherited or sold.

Investor Stock

Idle investors gains common stock which is capped at a return of 10%.

Common stock has no voting rights.

Protected from interfering in company implementation.

Companies give owners their proper place and employees due stability and gains.

Convergence in this system is towards longevity and foundational cultivation.

The individual, not government, is responsible for their long term well being.

The system is structured to keep the individual reaping rewards due from fair distribution of profits & gains.

Militia & Viking

To own land is to oath to defend borders of every other citizen.

One is required to represent each parcel of land.

If an adopted member is chosen as the defender then that person is immediately given status as the family heir.

To protect lineage the family will invest considerable amounts of money to protect the family member by means of heirloom powers.

Ancestral techniques and technology will accumulate to keep the family alive.

Military being the militia. The individual, under organized command of the King, will be the owners of all battle armaments.

Invasion is guarded by required, known-name, pre-organized militia.

Terrorism is retaliated by Viking retribution.

Foreign policy approved by the King and effected by Vikings.

Vikings are voluntary only forces that can only be composed of members and assets that aren't locked into commitment of the militia.

All proceeds from the Act of Engagement of the King will be calculated and evenly distributed.

All risk their life and all get gains.

Each check other to be worthy of the gains.

One Ring vote of 3:2 allow dishonorable discharge of vikings which reduce loot by merits done, not subject to a ratio of total loot.

Militia & Viking converge to an elite and well-machined organization of American power.

Judge & Jury

Judges are unpaid and chosen by meritocracy but it is backed formidably by ancestral honor. If a line has always proven to be faithful and honorable then their judgement holds the most weight.

One Ring allows audits & Artificial Intelligence to compile an appropriate quantity of qualified jurors.

Judgements of Judge & Jury are public on One Ring.
Any corruption that is discovered will face severe retribution.

Mascot

Punishment will bless the animal kingdom.
Mankind, since the Fall of Rome, has neglected the animals in the world of man-flesh.

No jail nor enslavement.
Immediate punishment or exile.

Violation after a point will enter the perpetrator into a den to feed the animals.
Man is a substantial amount of meat that can be eaten fresh or kept for longterm.
Glorious beasts will be fed the prime meat of the planet.

Vikings bring back preserved man-flesh as loot.
This allows communities to sustain animals as worshiped elements of the culture.
Presence and the social interaction with the animals will distill a distinct knowledge of consequence.

Global Initiative

The world will converge to the Individual World Order by the propagation of health.
 The only government that becomes healthier with each passing generation.
 The system retains the individuality of each nation by implementing universal human rights.

One Ring being available to every country will quicken the convergence.
 Global discourse and unfiltered information will expose all corruption.
 Global efforts to retain human rights will nature implementation.

National image around the core of the human soul.
 Each nation will find a more unique expression by this super-framework.

Immutable borders defined by history and locked in the future, subject only to fate.
 One Ring will call all to their homeland being empowered by a global backing.
 Populace will be proved, from history by scholars & Artificial Intelligence, to be from that region.
 Ancestral lineage the highest weight.

Each region will determine the nation state as being united or being independent.
 The Individual World Order fosters strength in diversity.
 Where once a region needed to be subjected to another's rule, now it will be give a viable option to independence.

Each continent, in succession, being the global center of attention.
 Each claim weighed by the international community and ratified by a standard used upon every case equally.
 { Hawaii, Palestine, Hong Kong, ... }

Global aide will converge to assist a true assessment and implementation of vote.
 The borders will be internationally & regionally closed until determination.
 Global powers will be exterior to the region border to keep isolation.
 Once a system is decided, then these global powers will enter the region to verify by popular witness.
 Then the international system will recognize the nation whether united or independent based upon the set standard.

America

America The Nuclear Steward of Borders.
 Each nation will be appointed a nuke and therefore nuclear power will be available to every nation.
 These nukes will be stationed at global American Bases.

Cold nuclear deterrent. Time is on the side of the system and gives a more potent strike the longer the process takes.
 Nuclear retribution is demanded as due, and promised by America, once the source of the invasion is established without a doubt.
 One Ring platform is required and allows the unfiltered direct information to guard against false-flags.

International borders will be kept in tact by the objective commitment of America to treat each as every other.
